## **DETAILED ACTION**

Claims 32-38, 43 and 45 have been canceled.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-31, 39-42, 44 and 46-65 are rejected under 35 U.S.C. 102(b) as being anticipated by the OLYACRYLAMIDE (PAM) A New Weapon in the Fight Against Irrigation-induced Erosion publication.

Note particularly the disclosure in the second column of the first page and the first column of the second page of the publication. The application of PAM by a sprinkler is considered to include misting since some misting would always necessarily occur with irrigation. Note the disclosure of water in the middle of the second column on the first page of the publication.
